THE DUROC-JERSEY

Accurate information of the origin of the Duroc-Jersey breed does not seem to be of record. It is generally supposed that this breed is strictly American, yet some information available seems to point to the fact that the original stock was imported at an early date. The best information available bears out the statement that originally there were two distinct families of this popular breed going under separate names, that of "Jersey Reds" and "Durocs." The name Jersey Red was probably given to this family by Joseph B. Lyman, a resident of New Jersey and an agricultural editor of the New York Tribune. Previous to this time the breed had been called Red Hogs. A Mr. Lippincott, of New Jersey, was probably the first man to advertise these hogs as Jersey Reds. History records the fact that in 1832 there were a pair of red pigs shipped from England to New Jersey. Clark Pettis makes this statement: "Their unique color rendered them objects of special interest in a locality long noted for successful swine breeders and feeders, among whom had long existed a great spirit of rivalry as to whom should annually win the honor of raising the best lot of hogs, making the greatest average weight at different ages for which prominent Philadelphia butchers paid advance prices." The Duroc family were so called by Isaac Frink of Milton, Saratoga county, New York, Mr. Frink visited the farm of Harry Kelsey, of Florida, N. Y., who was the owner of a noted stallion named Duroc. While on this visit Mr. Frink saw a litter of ten red pigs, the production of a pair brought by Mr. Kelsey from Oyster Bay, N. Y., or imported from England. Information available shows that Mr. Kelsey told Mr. Frink they were imported, but it is possible that the term was misused. Farmers and hog growers were very much impressed with the productive power of these red pigs and they were much sought after, taking the name of Duroc because of the noted stallion owned by Mr. Kelsey. It seems that the Duroc family of red hogs at this time possessed more quality and probably finer bone than the Jersey Red, but in the course of time the two families were inter-bred with the result of a larger hog with more quality that seemed to meet with great favor wherever they were known and later on assumed the name of Duroc-Jerseys.

The older breeders and growers of hogs well remember the time when the Duroc-Jersey hog was a curiosity at our larger state fairs. It is well within the memory of many of the breeders who are actively breeding Duroc-Jerseys today that one who would have the nerve to take an exhibit of them to a fair was regarded as being fanatical. The fact remains, however, that these men were not fanatics, but showed genuine judgment in the selection of this breed. We know of one particular locality where some twenty-four years ago a breeder bought a pure-bred Duroc-Jersey sow and began the production of this breed. At that time there was another Duroc hog within fourteen miles of this man's farm. Inquiry of the hog buyer at the town where this man lived recently revealed the fact that at the present time 85 per cent of all the hogs shipped from this town to market were solid red. What was done in popularizing the breed in this particular locality has been done in many of the best hog growing districts throughout the United States. Farmers and hog growers never would have taken hold of this breed of hogs and promoted them to the extent they have unless there was a genuine merit and feeding qualities to warrant the effort.

31111

In practically all of the leading hog shows throughout the United States the numbers of Duroc-Jerseys are equal to that of any other breed; in many of these shows there are more Duroc-Jerseys shown than any other breed and in some of the leading shows as many as all other breeds combined. The visitor to these fairs will bear out the statement that in these large numbers shown they will find quality in proportion to numbers. In recent years there are many parts of the United States in which hogs are being successfully grown that a few years ago were not producing any. The popular Duroc-Jersey breed will be found in partically all of these new localities. The farmer and hog grower of today, whether he be located in a new locality or an old one, recognizes the fact that in order to succeed as he should he must produce the best. In starting his business he gives the matter of breed selection careful attention. The very fact that as we have stated that this careful attention to breed selection has been given and that Duroc-Jerseys have been found in these localities shows that they are one of the breeds for maximum profit. In the leading barrow shows throughout the United States, Duroc-Jersey barrows are carrying away their full share of the honor, in singles, pens and car-load classes.

The National Duroc-Jersey Record Association was organized in 1891. J. M. Stonebreaker was the first president and J. W. Phillipo was the first secretary. Enormous strides to the front have been taken to the extent that at the present time, Apr. 21, 1919, we have 9,650 members, making the National Record Association the largest swine record in the world with the largest amount of resources and recording a greater number of animals than does any other swine record.

In 1916 the association erected a building of its own in Peoria, Ill., which is certainly a credit to the breed and to the association. No other breed record association has so fine and complete a home. The office is equipped with the most modern and up-to-date office appliances, making it possible to conduct the office work with the greatest efficiency and the least possible waste of time. The fact that this association has been able to accomplish what it has is to a considerable extent due to the method of handling its immense business. For a good many years past it has been the policy of the association to have its officials and board of directors in actual charge of the business, always directing its affairs, thus getting the membership in as close touch with the active work being done as is possible.

No truer statement was ever made than that the hog is the mortgage lifter. So thoroughly convinced are the officials of this association that the Duroc-Jersey hog is one of the best for maximum profit that the policy of extensive breed promotion has been adopted to the extent that in 1918 more than $15,000 was expended in this work through the medium of premiums and trophies at various fairs, boys' and girls' pig club work and various other means through which the splendid qualities of the Duroc-Jersey hog was made known to our hog growers.

The National Duroc-Jersey Record Association belongs to the Duroc-Jersey breeders who are members of this association and the officers are anxious to do everything they possibly can as officers of this association for the promotion of the breed's interests, and we wish to take this opportunity of thanking the thousands of Duroc-Jersey breeders who are patrons of "The National" for their patronage and it is the earnest wish that we can be of more service to the members of "The National" in the future than we have been in the past.

To give you some idea of the enormous increase in the business done through the office in the last ten years wish to say, that for a time during the summer of 1910 the present Secretary did all the work that was done in the office, now he is assisted by about forty able assistants and plans are now being worked out for an increase in the office employees to at least fifty by September 1, 1919.

We know of no better criterion by which to judge the popularity of the breed than the increased volume of work that is being done through this office. By July 1, 1919, eight thousand square feet of floor space of our magnificent building will be occupied by our own office force of employees and they are ever ready to answer any call from the Duroc-Jersey breeders by any service they can render.

We the members of the Executive Committee of the National Duroc-Jersey Record Association have examined the books and accounts of the Association, also the report of the Auditors and find that we have in our possession the property as listed in the Auditors report. We are pleased to report to the Stockholders that we find that the work of the Secretary's office has been handled in a very satisfactory manner and the records of the Treasurer are all that could be asked for.

An immense amount of increase in business has been handled through the Association's office this past year and every indication at this time is that we will have the pleasure of taking care of an even larger increase in business for the coming year and for the years to come.

During the past year we have promoted 38 District, 14 State and a National Futurity, which is an increase in this line of promotion work of about 200 per-cent in one year. We have also spent more money the

past year for other lines of promotion work such as Pig Clubs, Fat Stock Shows, small State Fairs and County Fairs than previously.

Our membership on November 1st was 8570, an increase of 1372 for the eleven months period. We still have 1430 shares unissued which at the present rate of increase will have been consumed before the close of this fiscal year. This committee would recommend that the stockholders at this meeting vote in favor of an increase of 30,000 shares.

W. H. VANMETER.

Garber, as there being no further nominations Mr. Bartholomew put the question which received the affirmative vote of all stockholders present so Mr. F. S. Vanderhyde was declared elected President.

MR. DUROC BREEDER:

If you have been actively engaged in breeding Durocs for the past nine or ten years you have noticed the increased demand for this "best of all" breed of swine and have carefully watched the growth of the National Duroc-Jersey Record Association, both in its great membership and resources. This association is now **THE LARGEST SWINE RECORD ASSOCIATION IN THE WORLD**, having at the present time over 9,000 members and this number is steadily increasing. On another page of this book appears a cut of our new up-to-date fire-proof office building, the entire first floor of which is occupied by the association, and it is so arranged that as time and business demands the other floors can also be used by us. It is absolutely the finest building of its kind, owned by any similar association, and is the result of the past five or six years business done by us. We feel justly proud of our efforts to make this the best record possible, and we feel that no little credit should be given the many breeders who have done much to advance the breed and its interests.

J. R. PFANDER, Secretary.
